

SAFETY OF FUNDS POLICY

(October 2018)

The security of our clients' funds is of the utmost importance to Zeal Capital Market (UK) Limited (the Company). We have created and maintain a safe and secure trading environment which prioritises the security of funds and client privacy.

The FCA has a strict regulatory environment, which includes capital adequacy and safety, to which the Company stringently adheres to.

All clients have the option of having their funds segregated from Zeal's corporate funds. These will be deposited in an account with a UK regulated bank, totally independent of the Company.

In the unlikely event that the Company were to go into liquidation, individual clients would be covered by the Financial Service Compensation Scheme for up to £50,000.
